Nuclear subshells and deformations in the range beyond lead, N. N. Kolesnikov, A. P. Krylova, Zhur. eksp. i teor. fiz. 33 no. 1:274-277 JI '57.

Spins and parity of deformed odd-odd nuclei, L. K. Peker, Izv. AN SSSR, Ser. fiz. 21 no. 7:1029-1033 JI '57.

Theory of electron-positron pair formation following the collision of slow α-mesons with atomic nuclei, L. M. Arkhian, Zhur. eksp. i teor. fiz. 33 no. 1:280-281 JI '57.

NUCLEI, ATOMIC—DECAY

Fine structure in the α-decay of odd nuclei [with summary in English], V. G. Nosov, Zhur. eksp. i teor. fiz. 33 no. 1:226-231 JI '57

NUCLEIC ACIDS

Nucleic acids and their nitrogenous bases in the liver of rabbits during their ontogenetic development and growth (under normal and pathological conditions), L. P. Rukina, Uzb. biokh. zhur. 28 no. 4:451-458 '58.

NUCLEONS

Annihilation of antinucleons [with summary in English], V. M. Maksimenko, Zhur. eksp. i teor. fiz. 33 no. 1:232-237 JI '57.

Convergence of series in the theory of perturbation applied to nonrelativistic nucleons, A. D. Galanin, I. U. N. Lohkov, Zhur. eksp. i teor. fiz. 33 no. 1:235-236 JI '57

Differential cross section of the photoproduction of π-mesons on nucleons accounting for d-states, N. F. Neitpa, Zhur. eksp. i teor. fiz. 33 no. 1:271-273 JI '57.

Dispersion correlations and equations of phase displacements for meson-nucleon collisions in the proximity of nucleons at rest, A. A. Logunov, A. N. Tavkhelidze, Soob. AN Gruz. SSR 18 no. 5:533-540 My '57.

Energy spectrum of recoil nucleons formed in the nuclear fission of wolfram and aluminum, E. G. Boos and others, Vest. AN Kazakh SSR 13 no. 7:101-103 JI '57.

On the structure of nucleons, B. S. Neganov, Zhur. eksp. i teor. fiz. 33 no. 1:260-262 JI '57.

Overcharge probability of 3, 10⁹-10¹⁰ ev energy nucleons due to interaction with air nuclei, V. A. Vorob'ev, Zhur. eksp. i teor. fiz. 33 no. 1:264-265 JI '57.

Some peculiarities of M1-conversion nuclear transitions [with summary in English], D. P. Guchukhin, Zhur. eksp. i teor. fiz. 33 no. 1:163-169 JI '57.

NUCLEOPROTEINS

Disintegrating effect of ionizing radiation on deoxy-ribonucleoprotein filaments [with summary in English], E. V. Baidova, A. M. Kurin, Biofizika 2 no. 4:476-479 '57.

Effect of small doses of ionizing radiation on deoxy-ribonucleoprotein s [with summary in English], V. S. Tongur and others, Biofizika 2 no. 4:468-475 '57.

NUMBER CONCEPT

Formation of the child's first notions of number, V. V. Davidov, Dokl. APN no. 2:51-51 '57

Some aspects of a child's thinking in the process of acquiring counting habits, A. V. Brushlitskiy, Dokl. APN no. 2:63-66 '57

NUMBERS, THEORY OF

Evaluating the number of irregular L-functions of a quadratic field, S. V. Matilina, Uzb. mat. zhur., 8 no. 3:310-324 '58.

NUMERATION

Hexadic and decimal systems of numeration in some ancient manuscripts of the peoples of Asia Minor [in Georgian with summary in Russian], V. A. Oyakharis, Trudy Inst. Iaz. AN Gruz. SSR Ser. vost. Iaz., 2:9-20 '57.

Monthly Index *of* Russian Accessions

Volume 10, No. 10

January 1958

THE LIBRARY OF CONGRESS
WASHINGTON : 1958

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS¹ is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions Index*.

The MONTHLY INDEX consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Jo	June	O	October
Mr	March	Jul	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S. Levinn, G.M. Neishtadt. Vestnik, 30 no. 5: 8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levinn and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the INDEX. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$12.00 a year domestic, \$15.00 a year foreign. Price of Cumulative Index to Volumes 1-3, \$1.50; to Volume 4, \$0.60.
